I was writing this Perl-fiddle yesterday and it quite suddenly started to spit out all sorts of errors. I tried playing with the shebang line but it still started spewing out errors. "base exception" So, I figured that the fault is in the program I am running. So then, I tried using use die "Aborting"; and now the entire program gets aborted and the error log is blank. So, my question is, can I programatically catch any exceptions thrown? For example, can I write a subroutine that catches the "base exception" and calls on that? A: The exception thrown by die has an optional message parameter that you can access: my \$e = eval { die }; say \$e; This is the top of the exception stack. You can get deeper in to the exception object with the method Backtrace say \$e->{Backtrace}; Q: Error updating a field in a Google form with Google Apps Script I have a Google form that I'm trying to make easier to edit. I think it's smarter to display some data that doesn't necessarily belong to the form's question (in this case a list of suggestions) but at the same time, I don't want to edit the form itself but only the list displayed. To do so, I have added to my form this code: function onSubmit(e) { var ss = SpreadsheetApp.getActiveSpreadsheet(); var sheet = ss.getActiveSheet(); var data = form.getValues(); var suggestion = data[0][7]; var row = sheet.getLastRow() + 1; var column = sheet.getLastColumn(); var source = sheet.getRange(row, 4, 1, 2).getValues(); var dest = sheet.getRange(row, 3, 1, 2); dest.setValues([suggestion]) } 648931e174

Virtual Grand Piano.TEL AVIV - A far-left organization that once identified itself with Nazi sympathizers in Israel is planning a brutal attack on its former ally, the Jewish state, the Times of Israel reported Monday. "This organization, Falangen, has fallen into the hands of bloodthirsty monsters," Isa Toran, former president of the New Israel Fund and a founding board member of the Islamic Movement in Israel (IMI), told the paper. "This is no longer a Zionist organization. It has taken on an Islamic form, and its ideology is anti-Zionist." "The [JNF] and the IMI are organizations that people who condemn the presence of Jews in the Land of Israel also oppose," Toran said, referring to the Jewish National Fund and IMI, respectively. "But as per the grant, it will be a positive act, even if it is with organizational equipment taken from the IMI." Toran and other Falangen representatives did not immediately respond to JTA's request for comment. Falangen was founded in 1987 as an organization that would see Zionism and Judaism as mutually exclusive ideologies. The Falange movement was outlawed in 1938, but Falangen was allowed to continue to exist in the West Bank and Gaza as a political party until it was banned in 2005. The organization denies being a fascist party, although several of its former members, such as Effi Levy and Yehuda Avner, did identify themselves as fascists or Nazis. The organization is led by Mazen Arbeed, a former member of the Fat
