IIS Web Site

Choose between using an existing IIS web site or create a new one to serve the Microsoft SharePoint Foundation application.

If you select an existing IIS web site, that web site must exist on all servers in the farm and have the same name, or this action will not succeed.

If you opt to create a new IIS web site, it will be automatically created on all servers in the farm. If an IIS setting that you wish to change is not shown here, you can use this option to create the basic site, then update it using the standard IIS tools.

Use an existing IIS web site

Default Web Site

Create a new IIS web site

Name

SharePoint - 6814

Port

6814

Host Header

mywebapp.testdomain.com

Path

C:\inetpub\wwwroot\wss\VirtualDirector
